

## AIR Elite starts now.

Enroll now to hit the ground running, instead of waiting until live training starts September 15th. Complete your business formation, set up your financial accounts, and kick off multi-state licensing. That groundwork is part of the program. Once you enroll, we'll guide you through the steps.

### Timeline:

<b>ENROLL</b>	We provide the roadmap for your business formation and financial setup, so by the time live training sessions begin September 15th, your attention is fully on learning — not split across business setup at the same time.
<b>START LICENSING</b>	Multi-state licensing takes six months on average. Physicians who start licensing sooner, earn income sooner. Once you enroll, we connect you with our licensing specialist to kick off the process.
<b>SEPT. 15TH</b>	Live training with your cohort begins Tuesdays & Thursdays 6-7pm Eastern. With your foundation already in place, you're ready to fully focus on the training that will transform your practice.

## AIR's roadmap and resources guide you through these business setup steps:

- Connection to a vetted multi-state licensing specialist to kick off multi-state licensing
- Licensing document organization and credentialing
- Business entity formation and setup
- Financial accounts and bookkeeping systems setup
- Insurance and retirement planning
- Tax strategy and compliance preparation

## How to enroll:

Enroll with an initial deposit here: <https://airphysicianacademy.com/make-a-payment>
